Brewter:

I'm happy to have you as my friend. You make me happy. Your mind is open and creative, and your energy puts my eyes the brighter colours so that I can see life as a wonderfull show.

Your Idea is just great. I say Yes!! I'll do it. But I still have many questions. Can I live with you? Can I work?

The start of school is going normally. I'm looking after classes of singing. and after a part time work. This semester we're planning living department buildings. I'm very curious and exited. I've never done that in my life.

Rhonda is gone with a lot, but many ribbons she bought the day before.
I've spent three days with Art in Caracas. We did that nice night full moon walk to the mountain. Do you remember? And we met Elaina at the airport and we went to the meat restaurant that your father likes so much. Pilar was there too. Art and Elaina are now in Brazil in a city called Manaus.
I'll keep our friendship away from clouds and noise like a shinning light. We can do good things together, whatever we've ever wanted, dreams, new things, travel.

Big Kiss

Mónica

Notes:
- I'm happy to know that your mother is okay.
- Anything was obscure on your first letter just your writting.
